“Minutes must be kept of all public meetings and must be available to the public upon request not more than five business days after the public meeting. A business day means the hours of 8 am to 5 pm on Monday through Friday, excluding national and state holidays. The minimum content of meeting minutes includes: (1) names of members present; (2) other people participating (it is not necessary to list everyone present, however); (3) a brief summary of subject matter discussed; and (4) any final decisions reached or action taken. There is no legal requirement to accept or approve the minutes. Even if minutes have not yet been approved, they still must be made available not more than five business days after the public meeting. When the five business day deadline is reached before the minutes are approved, they can be made available to the public with a notation that they are a draft version.”

Town Administrator’s Report:
A welfare applicant will be submitting an application for assistance. The Town Administrator has given the applicant a list of verifications to submit as well.

Jim Innes and John Kamb, White Mountain National Forest, will meet with the Selectmen on Wednesday, September 19 to discuss support for the Federal Land Access Program (FLAP).

The application for the Northern Borders grant was not approved. The Town will apply again next year. Chairman Hiland asked the Town Administrator to contact Mollie Kaylor to ask when the next round of grants would open.

Deputy Rowe reported he has been checking on the Moulton property every few days and is confident that no one is living there. He placed a tie wrap around the gate opening to the campground behind the cabins and it had been removed. He will continue to monitor the property and report back.

The owners of One Wheel Drive are in the process of letting the bank take over their property. They are in a legal battle with their insurance company.

Appointments: Andy Davis/Andrea Walsh (World Fellowship):
Andrea Walsh came before the Board to request a letter of support to the Upper Saco Valley Land Trust (USVLT). The World Fellowship, a nonprofit organization, would like to place over 400 acres of their land into a conservation easement. They will receive grant money in exchange. Andrea explained the details and provided maps of the land. She will forward more information from the USVLT. If the Board will support this quest, the letter should be signed at their next meeting in order to meet the deadline. Selectman Ferris noted every year the town votes to not support the White Mountain National Forest purchase of land in Albany. This is no different. Selectperson Ryan supports what the World Fellowship is doing but would like to think over the letter of support. Chairman Hiland said Albany is already 88% National Forest, in addition to the Tin Mountain property and the Albany Town Forest. He would like to see the USVLT template. Andrea will forward it to the Selectmen.

Chairman Hiland attended a webinar on Cyber Security presented by the NHMA. Once it is on YouTube, he will forward the link. He explained the many vulnerabilities that municipalities face and what may be done to help protect as small town such as Albany. He suggested that all computers be shut down every night in order to protect the town’s information from being hacked. The Town Administrator will shut down the computers each night. **Selectman Ferris suggested setting up the back office as the Treasurer’s office. Chairman Hiland thought it was a good idea.**

Chairman Hiland found a RSA that allows the town to ask the County Commissioners for financial assistance to fix town roads if the cost is burdensome to the taxpayers. He feels the repairs to be done to Passaconaway Rd. are burdensome and the Selectmen should explore the possibility of approaching the County. Chairman Hiland also found that if part of Passaconaway Rd. was classified as a Class III recreational road, the State would maintain it.
